

## Environmental Policy Statement

WES Ltd is an engineering service company that specialises in chemical dosing. WES products are used by industry, notably in the water treatment process for both clean, drinking water and wastewater. The products designed and manufactured are often used for environmental management projects

The company's activities have the potential to affect the environment. WES Group recognise our environmental responsibility to sustainable development and continual improvement

### **1. POLICY**

The WES Group Environmental Policy is to:

- Meet all relevant legislative, regulatory and environmental requirements and codes of practice
- Design systems, products and services to ensure the risk of environmental impact from operational use is minimised.
- Seek to minimise environmental disturbance in all activities
- Develop objectives that target environmental improvements and monitor performance by regular review
- Wherever possible, prevent pollution, make efficient use of natural resources, actions include but are not limited to minimising waste, conserving energy and promoting recycling and the use of recycled materials
- Educate staff so that they carry out their activities in an environmentally responsible manner
- Retain continued certification to ISO14001

### **2. IMPLEMENTATION OF THE ENVIRONMENTAL POLICY**

Overall responsibility for ensuring implementation of the Environmental Policy rests with the Managing Director of the Company. The MD will assign responsibilities for detailed implementation to the other directors and line managers who will be assisted by the Company's HSEQ manager

### **3. AVAILABILITY OF THE ENVIRONMENTAL POLICY**

WES is committed to making the Policy available to all staff by display on company notice boards and on the company intranet and for other interested parties and the public by publication to our website

### **4. CONTINUAL IMPROVEMENT AND DEVELOPMENT**

WES is committed to continual improvement of its environmental performance

The Directors will annually review the Environmental Policy and Management Systems for their continued suitability

The Managing Director will review, sign and date the Environmental Policy Statement each year or more frequently if there are reasons that require the Policy to be changed and bring it to the attention of employees
